F. J. Griffin living northwest of town expects to overcome any shortage in the bean supply this season. He is growing twenty-five acres of the soup makers and has an outlook for an excellent yield. During the past year the price of beans has been altitudinous, and Fred figures that with a fairly good crop he can easily get excellent returns per acre from his field. —Sutherland Free Lance.

Rev. Lee H. Young, Episcopal rector at Hastings, and well known to many North Platte people, announces that in case Bishop Beecher goes to the Mexican border as chaplain of the Fifth Nebraska that he has determined to accompany the Bishop. Governor Morehead is urging the Bishop not to accompany the regiment, believing that the Bishop's duty to the church is more important than to his regiment.

NORTH PLATTE IS BOOKED FOR WIRELESS STATION

The wireless telegraph and telephone system recently perfected by Dr. Frederick Millner, the expert of the Union Pacific, for communication with moving trains will be put in practical operation in a few days. By this system telegraphic or telephonic messages may be exchanged between stations and moving trains, or sent from one moving train to another.

The demonstration car is now ready to be sent out on the road. Dr. Millner only awaiting orders to make the test. It has been demonstrated, so it is asserted, that such a system can be operated successfully, but the only thing standing in the way of installation is the matter of cost. The trip to be taken will demonstrate to a certainty what the probable cost of installation and maintenance will be. If it is decided to introduce the wireless system, stations will be established at Grand Island and North Platte in the near future.

Games with the Lincolnites.

The Cleaners and Dyers' ball team, of Lincoln, will play the local team Sunday, Monday and Tuesday of next week. The Lincolnites are ball players; they have vanquished every team they have gone up against this season, and expect to make it three straight in North Platte. To this last proposition, however, Manager Jake says nay, nay; we will win a couple of the three ourselves. But whether Jake is right or wrong, there promises to be three games of good ball—good enough to please every fan who attends. An addition or two to the local team has been made, and they enter the game Sunday somewhat stronger than ever before. The Sunday game ought to bring out not less than 800. Will you be there?

Roosevelt for Hughes

Colonel Roosevelt has formally declined the nomination as a progressive candidate for the presidency and urges his followers to support Hughes. In his letter to the national committee he comes out in his usual forcible manner in telling "where he is at." He writes:

"I do not believe there should be a third ticket. I believe that when my fellow progressives coolly consider the question, they will for the most part, take this position. They and I have but one purpose—the purpose to serve our common country. It is my deep conviction that at this moment we can serve it only by supporting Mr. Hughes."

Manse for Sale.

Bids will be received by the undersigned until July 12, 1916, for the sale of Lot 6 of Block 121 of the original city of North Platte, Nebraska, being the Presbyterian Manse situated at 615 West 5th street. The right is reserved to reject any and all bids.

The number of auto tourists passing through town is sufficiently large to keep the hotels and rooming houses pretty well filled. They create business in an otherwise dull time for the hotels, as during June, July and August there is a decrease in the number of traveling men on the road.

Mrs. E. S. Glines left a few days ago for eastern points to visit relatives for a fortnight.

Mrs. DeFord, of Des Moines, is visiting here this week with her daughter Mrs. Frank Johnson.

Farmer Olson Endorses Trip.

The Tribune received the following this morning. To the Chamber of Commerce and Business Men of North Platte: I am a farmer and had the pleasure of being with the silo-dairy trip. It was a great opportunity for the farmers and feeders to have an opportunity to learn real facts about so many things that have been tried out, so there is no guess work as to whether it is profitable to build silos and milk cows. Some of us know what a friend the old cow is in need, for in many instances we have received a bigger income from a half a dozen of milk cows than from a whole quarter section of land in one whole year; and they have kept the grocery bill from staring us in the face.

I will for my part and I think the rest of the farmers who were on the trip will do the same, extend my gratitude towards all those men of North Platte who made it possible for so many of us to go along and thereby gain knowledge of importance in so many things, and I believe that the Chamber of Commerce could not have in any other way shown their interest in the progress of the farmer and to promote a better feeling between the two classes.

But there is one large business firm that the people of this country do more or less business with that did not put their conveyance to the disposal of the farmer, and that is Sears, Roebuck & Co. P. W. OLSON.

Mr. and Mrs. H. I. Block and son and Mr. and Mrs. Harry Flesherman and daughter leave Sunday on a ten day auto trip to points in Colorado, Wyoming and the west part of this state.

Small Grain Looks Fine.

The small grain fields south of the river as far east as Peckham precinct—which is as far east as we traveled Wednesday—certainly looks fine; in fact we have never seen in that section quite so good prospects for wheat, rye and oats. The acreage of small grain is very large, and at certain points as one looked eastward, it appeared a continuous field of waving wheat and rye. From Ft. McPherson east the corn is somewhat more advanced than it is in this immediate vicinity, and farmers in that locality said that it is considerably further advanced than at this date last year. There will not, however, be knee high corn by the Fourth of July.
